Complimentary.

These distinguished industrial and financial leaders were complimented with a dinner at noon served at the Corner Cupboard, Mrs. Wade Biggers, manager. At the conclusion of the excellent meal, Thos. E. Craig, one of the directors of the mills, presided and introduced Mr. Thornton who spoke very briefly. He announced that the officials were on a trip of inspection of their textile mills properties at Waco, Dallas and McKinney with a view to selecting one of the properties at which to make major improvements in the way of additional facilities that are needed to enable the mills to compete in the markets of the world with the demand for fabrics that are almost revolutionary in character as compared with production heretofore turned out. He stated that their McKinney mill employed between 400 and 500 people and had a monthly payroll for all purposes from $25,000 to $27,000, which is a vitally important industry for McKinney and Collin county. He believes in manufacturing cotton in the South where cotton is grown and where living conditions for labor as to climate and otherwise are very advantageous. He expressed his inability to see the sound business in shipping the raw cotton to the far North and East to be manufactured and then shipping the products back again to the South for marketing. This double-way freight expense can be avoided if the Southern people bestir themselves and act with keen business acumen which they are getting more and more to do each year.

Among those present at the dinner were Manager Frank W. Smith and several directors of the mill and other guests as follows: Thos. E. Craig, Alfred M. Scott, F. Dudley Perkins, Henry W. Warden, Thos. Johnson, Hon. W. R. Abernathy, W. Hammond Moore, secretary of the McKinney Chamber of Commerce; Gibson Caldwell, president of the Collin County Mill & Elevator Co.; A. Hardy Eubanks; W. Avery Dowell, Senator Tom W. Perkins, Editor F. C. Thompson, Mayor Joe E. Largent, City Commissioner Chas. M. Bryan, Leo Spillman, County Judge J. Frank Harrington; County Commissioner Don O. Davis, County Commissioner J. Wilson Spain, County Commissioner G. Frank Kerby, County Commissioner Mrs. A. N. Burton and Walter B. Wilson.

The visitors were much pleased at their cordial reception and the warmth of their welcome to our city and left immediately after lunch on their return to Dallas again.

McKinney is fully alive to the importance of its big cotton mill and its advantages in the way of affording employment to local men and women and converting the raw product of our cotton fields into the finished manufactured cloth of various kinds that it is prepared to turn out. The local mill has a splendid atmosphere in which to operate and our citizenship offers every facility at its command for the enjoyment of the mill employes in the way of schools, churches and utility facilities equal to those found in any city, regardless of size.

Clarence R. Miller, vice-president and executive manager of these three big Texas mills, is regarded as a successful mill operator and is also looked upon as a good friend of McKinney. These papers are always glad to note his presence in our city for the purpose of confering with Manager Frank W. Smith of the local mill and with the members of the Board of Directors who live here—Messrs. Alfred M. Scott and Thos. E. Craig.

EMPLOYMENT TO 300 OR 400 ON HIGHWAY 6, 75

Employment is being given and will be given to from 300 to 400 laborers by the improvements now energetically proceeding on State Highway No. 6 and Federal Highway No. 75 that is being widened, rebuilt, straightened and newly built in places between McKinney and the Dallas county line, running southward through Allen and Plano.

Work is in progress on the new bridge across Cottonwood creek, at Allen, and also across Rowlett creek, between Allen and Plano, with E. L. Martin of Dallas, contractors in charge.

Local county unemployed labor only is being utilized. These new bridges will be 24-feet wide and about 300 feet long and will rise above flood-water danger.

Two culvert crews are also working up and down the route of the highway between McKinney and the Dallas county line.

Work is also proceeding at the Spring creek bridge and cut south of Plano. The old fifteen-foot iron bridge is to be torn out and a new 24-foot wide bridge built at that point.

A steam shovel is operated in widening the cut at that point and ten or twelve trucks are employed in hauling away the dirt.

The roadbed is being widened from twenty-five to thirty-six feet with a twenty-foot pavement on a twenty-two-foot base for hard surface, all weather travel.

This crew will soon finish up that job and move into the corporate limits of Plano where the water mains and street grade will be lowered through that little South Collin city.

McKinney Street Work.

Work is proceeding in McKinney with many laborers in two shifts tearing out the old curbs and gutters and widening the street to thirty-six feet. A concrete base is being added with an additional two inches asphalt covering for the street. The gas people, the city and the contracting crews are using all-told around 150 men in doing all kinds of labor, including work on water mains and meters, as well as the gas mains and new curb and gutter work.

County Judge Harrington and his four County Commissioners, Mayor Joe E. Largent and City Commissioners Add G. Wilson and Chas. M. Bryan are all pleased at the amount of labor being provided by these improvements underway and that are to proceed in an increasing way until the road shall be completed, which will take about ten months time in all to finish up.

The Austin Road company of Dallas is in charge of the McKinney City work and are also contractors for the twelve miles of road work to be done.

SCORES OF CLOWNS OF ALL DESCRIPTIONS FEATURE OF GAINESVILLE, TEX., CIRCUS

HEADED BY THAT LAUGH-PROVOKING JESTER, JOE B. PETTIT; ONLY ONE OF 100 OR MORE ATTRACTIONS; SHOWS HERE ON NIGHTS OF MAY 11 AND 12.

Celebrating the fifth anniversary of its founding, the nationally famous Gainesville Community circus this year features a hilarious Humpty Dumpty exposition of furious fun, with an augmented aggregation of clowns, headed by that laugh provoking jester, Joe B. Pettit, assisted by two score of the funniest fellows ever seen in a sawdust ring.

The circus is coming to McKinney for the exhibition of its remarkable attractions on May 11 and 12, under the auspices of the Lions club. The vast canvas city will be located on the vacant lot near the city coliseum.

The merry jesters have a new bag of tricks which they present in the form of an endless procession of mirthful escapades, stunts and comic situations. The funny fords are back with more noise, more fireworks and more surprises than ever before. There are stilt walkers, comedy acrobats, funny fellows offering travesties on the events of the day, and Humpty Dumpty's own collection of comic characters from story book land for the delight of the kiddies, young and old.

This year, the clowns employ many new devices for their ribtickling antics, including trick bicycles that fall apart at the unexpected moment, trained pigs, educated dogs and geese, and a brand new assortment of side-splitting gags.

There are giant clowns, pigmy clowns, fat clowns, skinny clowns, in fact every kind of funny fellow one might imagine. And all of the favorites are back again, Portis Sims, the flapper clown; Kafe Irish Piper, the clown cop; Wayne Collins, nat juggler extraordinary; Ray Whittaker, he takes the bumps; Glenn Davis, the hilarious Hebrew; Art Lanford, the merry andrew; the Bumpkin Trio, Dummy Nowell, pantomimist supreme, and dozens of others equally well known for their specialties.

But the parade of the clowns is only one of more than 100 features of the show program, which lasts two hours and runs the gamut of circus thrills from the death defying aerial loop-the-loop artists to the somersaults bareback-riders.

BILLY PRUITT, YOUNG SEVENTEEN YEAR OLD WEST COLLIN NEGRO, GIVEN 99 YEAR SENTENCE FOR ASSAULT

Billy Pruitt, seventeen-year-old negro of West Collin, is in the Collin county jail, here, awaiting the arrival of state penitentiary agents. He was tried in Judge F. E. Wilcox's Fifty-Ninth District court here Tuesday and given ninety-nine years in the state penitentiary on an assault to rape charge.

He plead guilty. The jury of which John Thompson was foreman was out only five minutes. County Attorney W. C. Dowdy and his assistant, Hon. Leon G. Moses, represented the state, while Judge T. O. Murray was appointed by the court to represent the negro.

Ninety-nine years sentence to the state penitentiary is the maximum limit punishment in such cases.

The case grew out of an attempt when the negro made on a twelve-year-old white school girl of the Walnut Grove community. While returning home from school on the Afternoon of Thursday, April 12, in company with a smaller sister and two smaller brothers, she was the victim of Pruitt's attempt. One of the small brothers ran for help from a neighboring farmer, plowing near by. When they returned, the negro had fled in fright without accomplishing his purpose.

He was captured two hours later by Deputies A. G. Sparlin and George Eubanks of the Sheriff's office and was brought immediately to the office of County Attorney W. C. Dowdy, making a full confession.

The negro offered no testimony in his trial, other than two character witnesses who told of his former good behavior.

The case was handled so smoothly, quickly and efficiently by the wheels of justice that nothing even resembling violence was contemplated. The maximum ninety-nine year sentence, as above stated, was imposed.

Announces For Re-election

CONGRESSMAN SAM RAYBURN

From Fourth Texas District (Composed of Collin, Grayson, Fannin, Hunt, Rains, Rockwall and Kaufman counties.)

SAM RAYBURN ANNOUNCES FOR RE-ELECTION

In the announcement column of the Daily Courier-Gazette and Weekly Democrat-Gazette will be found the name of Congressman Sam Rayburn for re-nomination and election to succeed himself in the Lower House of Congress from the Fourth Texas District, which is now composed of Hunt, Grayson, Collin, Fannin, Rains, Rockwall and Kaufman counties.

It is quite unnecessary to try to tell the reading public in his own district of Sam Rayburn's public career and service, or even in any other part of the nation, as his statesmanship has stood out in such conspicuous ways in recent years that he has become truly a national figure in the halls of Congress and in national Democratic party leadership.

Suffice it to say, however, that he was one of a family of eleven children, born on the farm, educated in the rural schools and in the Texas State university with only $25.00 in his pocket when he entered the latter institution. By his own grit, indomitable will and dint of hard work and pinching economy, he paid his way through his university training. He was an ardent student, bright and determined to learn all that he could get taught to him.

When barely past his majority, he displayed his shingle as a lawyer at Bonham, near which town his parents settled when he was only five years old. At twenty-four, he was elected to the legislature. His second term saw him chosen to the coveted honor of Speaker of the Texas House of Representatives. He filled that position with such preeminent ability, that in 1912, he was elected to Congress. He has been continuously re-elected every two years since to that position.

He was appointed to the important Interstate and Foreign Commerce committee, and he was at home, there. He had already seen kindred service in the Texas state legislature, and the devious ways of railroads were more or less already familiar to him. When the Democrats were swept into power two years ago, Congressman Rayburn succeeded to the chairmanship of that important committee. He has won national recognition by his comprehensive knowledge of the railroad and transportation problems of all angles. He is regarded by national lawmakers of both political parties as an authority on the subject.

In addition to transportation problems, this committee is entrusted with laws relating to public health, the control of the Coast Guard, legislation affecting navigation and all laws having reference to the Panama Canal regulation and conduct. As spokesman of the dominant party and the administration, he has given a pre-eminently good account of himself.

The Stock and Bond bill, successfully piloted through Congress in the earlier part of his career, drew public praise from President Woodrow Wilson.

During the war with Germany, Mr. Rayburn managed in the House all soldier legislation, including the War Risk Insurance Act, which at that time was administered under the United States Treasury department. William Gibbs McAdoo, then Secretary of the Treasury in Woodrow Wilson's cabinet, commended Mr. Rayburn for his constructive work in behalf of World War soldiers by sending him the following message: "May I not congratulate you heartily on the fine service that you have rendered to your country and to the enlisted men and officers in the Army and Navy and to their dependent

EMERGENCY CROP LOANS EXTENDED TO MAY 15TH

The period during which applications for emergency crop loans may be accepted has been extended through May 15, according to announcement today by Charles W. Sherrill, Regional Manager of the Southwestern Emergency Crop Loan office of Dallas, serving the states of Texas, New Mexico and Arizona. Emergency crop loans are available to farmers for crop production purposes who cannot obtain such a loan elsewhere. The maximum amount available to any one farmer is $250.00 and the minimum is $10.00, according to the regulations. Cooperation with the Agricultural Adjustment administration and the Production Credit asociations is given by all borrowers receiving aid from the Emergency Crop Loan office.

Applications received through April 26 were 32,000. Last year the Dallas office completed 65,000 loans to farmers in the three states. The average loan for 1934 amounts to $73.00. A higher average was reported last year. The collections reported by the Dallas office of 1933 loans amounts to more than 85 per cent of a total of more than $5,050,040.55 loaned.

With a smaller number of loans closed and a lower average amount applied for in the applications received to date, there is evidence that emergency crop loans are being made on a sounder basis and that farm conditions are improving in the region served by the Dallas office, Mrs. Sherrill pointed out.

"The Dallas Regional office has enabled thousands of borrowers without resources sufficient to obtain credit elsewhere to become bank customers. No loan is denied a worthy farmer who needs financial aid and cannot get it from any other source for lack of adequate security."

"The Dallas Emergency Crop Loan office holds the record for economical operation and has been commended for its sympathetic understanding of agricultural financing."

"We have endeavored to be constructive and fundamentally sound in the administration of emergency crop loans."

H. B. BICKERS COLLIN COUNTY ADMINISTRATOR

H. B. Bickers, Collin county administrator under the new Federal Relief and Rehabilitation set-up, succeeding the CWA, assumed his new duties this week, spending a greater portion of Tuesday in conference with officials and others interested in the work here. He succeeds W. B. Mantooth, who resigned a few days ago as county administrator. Mr. Bickers' home is in Dallas. During the time he was connected with the Dallas office, he was planning engineer, laying out and planning the various projects engaged in in that county.

During a conversation with this editor Wednesday, Mr. Bickers stressed the fact that the new set-up is not a work program, but a relief and rehabilitation program. Some relief work is being carried forward at present. The local office, he said, is anticipating orders at any time to begin the rehabilitation program.

Mr. Bickers plans a thorough visit over the county in the next day or two to further familiarize himself with the needs of relief in this county.

YOUR HOME TOWN

HERE AND THERE

After observing those ominous-looking clouds in the direction all day long, all we got to say is, that if it rained rain today, Col. Jepi-ter Pluvius has missed a rare opportunity to sprinke on . . . friend: "I don't one wants to keep it from pouring down," he continued . . . Mrs. Clifford S. Weaver on a downtown visit and, as usual, greeting her many friends and acquaintances with a smile and a kind word . . . Miss Sallie Kindle greeting a friend on our streets this morning . . . Three of our best friends have been missed from their accustomed posts of duty the past few days—J. Vossler at the North Side Drug, and Terry Drake and Hoyt Copeland both of the Central State bank; all are dandy fellows; We hope to see them out again soon . . . Mr. and Mrs. Jack Warden being complimented on the extensive addition to the Easterns Beauty shop . . . That May Fete Friday night out at Newsome stadium should prove to be about the biggest event of its kind ever staged in North Texas . . . Mr. and Mrs. Leo Spillman on a downtown visit.

FISH vs. FISHERMEN

There is plenty of fish, now but the fishing season is open, or maybe we should say plenty of fishermen. The game fishing season opened Tuesday, and some of the local advocates of hook and line sport became terribly upset when they failed to get away to their favorite haunts for the finny tribe. However, many from McKinney went out on opening day expeditions. Lake Lavon, in the southeastern part of the county, an ideal fishing spot, was besieged by members, who took advantage of this beauty spot to throw in a line or cast about in a test of their luck. At Lake Dallas, hundreds of McKinney and Collin county fishermen joined the parade of other North Texans out to that fishing grounds and some of them had good luck. The opening of the fishing season was the big sporting event of the day, but another season opened that was almost unnoticed—squirrel season. What few of our citizenship who desire squirrel hunting over fish, the season of the year did not participate or at least we failed to hear of it. Squirrels will be plentiful this year, and we expect any day to see some of our local sportsmen start out with a shotgun under one arm and a fishing pole under the other.

"Your Home Town," who was recently honored with election to the presidency of the Collin County Class C Baseball league, appreciates two kind invitations to attend the first game of the championship series, played Tuesday afternoon at Climax by the Lucas and Moreland teams. These invitations came from Prof. Elbert Standlee, principal of the Wilson school, and Prof. Clarence Iverson, principal of the Lucas school. Lucas won the Southeast and Southwest divisions of the Class C league and Moreland, by defeating Wilson in a play-off, won the Northeast Division. This series, therefore, is for the league championship. Lucas was first champion of the Southeast Division and then defeated Bloomdale, champion of the Northwest. The next game will be played on the afternoon of Friday, May 4, and in case of a split in the games, the third game will be arranged.

LOCAL FISHERMEN ARE HAPPY NOW THAT FISHING SEASON IS OPEN AGAIN; REPORT FINE CATCHES

The fishing season opened Tuesday with a bang as hundreds of McKinneyites—among whom were many rabid fishing fans—repaired to lakes, creeks and other fishing spots to try their luck, which, according to them, was varied.

Club Lake, a fisherman's paradise, southeast of McKinney, was about the most popular spot in the county Tuesday, as a large number of members from McKinney drove down for the day. At Lake Dallas, in Denton county, many local citizens who made the journey enjoyed some catches.

Many more local citizens are preparing now to make another foray into more fishing paradises during the coming week-end. All in all, it seems pretty bad for the fish—but they're not worrying—at least you can't tell it.

families during the War with Germany, in securing the passage by the House of Representatives of the so-called War Insurance and Compensation Bill."

President Franklin D. Roosevelt entrusted such important administration new law enactments as the Securities Act and the pending Stock Exchange bill to the introduction and piloting through Congress of Mr. Rayburn, whom they were not really considered as a part of his special committee matters.

He has been a member of that efficient group of handful of trusted leaders that has kept the wheels of legislation moving and with whom the President regularly counsels and depends on concerning his proposed "New Deal" measures.

Unprejudiced observers rank our Fourth District Congressman as among the strongest, safest, most capable and tactful leaders of Congress. He is modest, concerning his knowledge of statecraft; he doesn't seek the limelight of publicity and rarely ever speaks in Congress, but when he does rise to address that body, his colleagues listen, because he has something to tell them. They have confidence in what he says and follow his leadership.

"It is unfortunate," said the Sherman Democrat, in a recent editorial, "that Congressman Sam Rayburn is to have opposition this summer in a campaign for re-election. As chairman of the House Committee on Interstate and Foreign Commerce, he has plenty to occupy his time in working with the administration in recovery efforts without having to devote some of his time and efforts to insuring his return to Washington. And a good many people of this district are anxious that he be able to continue his good work, unhampered by politics, in the interest of the proposed Red River dam and hydro-electric improvements.

"All of this is said without prejudice to the opposition candidate. We are sincere in the belief that Mr. Rayburn occupies a position where he can serve the district better than any other man who might offer his services. His ability and his acquaintances in Washington are such as to make it appear to us a mistake for the district to consider any other man for the position."

Naturally, the fourth district is proud of its Congressman and the long, hard service that he has rendered the district and also over the entire nation as well. He stays close to his post of duty, and no Congressman is more assiduous in his attention to the interests of his consituency individually or as a whole, than is Sam Rayburn.

His standing nationally is attested by many honors thrust upon him by his party in presiding over its caucuses and in putting forth its policies and legislative program. His seniority is a great advantage to his district, his party and our nation.

He submits his candidacy for re-election on his record already established and on his ability to continue to render efficient service to his district and our nation at large. He appreciates his home district friendships above all others and willingly submits his political fortunes to their hands and keeping

You can make the sun shine shine in your sun room regardless of how it is situated—make it a real sunny room—with the daring use of color. In fact it is one place where you can use a riot of colors without offending good taste. A real sun room calls for color, and plenty of it if you would really make it a really bright spot. INFORMATION TO TAXPAYERS OF COUNTY

GIVEN OUT BY COUNTY TAX COLLECTOR N. D. READY

Due to the fact that since 1930 our Legislature has, from time to time, made various changes in our tax laws, it has become extremely difficult for the public to know just what the law is regarding tax penalties and interest.

The newspapers have been extremely nice and helpful in trying to keep the public informed as to the changes that have been made, from time to time; and I wish especially to thank our local papers for their interest in this matter and for the news items published at regular intervals, calculated to be of benefit to the public in helping them to understand the various changes in the law pertaining to tax matters.

I wish to call your attention, however, to an article published Monday, April 30, by the Daily Courier-Gazette, which article, according to a statement of a representative of that paper, was taken from a Dallas paper. The statements made in said article are applicable to city tax in Dallas, but said statements are not applicable to state and county taxes.

That the public may know the true status of tax penalties and interest at this time, and that those who can possibly do so may be able to take advantage of the special tax law, relieving them of a portion of the penalty and all accrued interest on 1932 and prior years' tax if paid, on or before June 30, 1934, I submit the following three items of information, which I hope will make the law clear to the public, and which we are due to give credit to our local newspapers for publishing.

First, last half payment of 1933 tax, due on or before June 30, 10 per cent penalty on July 1; also 6 per cent interest per annum after that date, or ½ of 1 per cent per month from July 1.

Second, 1933 tax without first half being paid, became delinquent on Feb. 1, at which time the 10 per cent penalty was added; and starting today, May 1, 1 per cent interest, which makes a total of 12 per cent penalty and interest. There will be no further change in this amount until July 1, at which time 1 per cent additional interest will be added.

Third, 1932 and all prior tax may be paid under special tax law on or before June 30, with 15 per cent penalty and no interest. On July 1, if this tax is not paid, the special tax law expires and the entire penalty of 10 per cent, plus 6 per cent interest, per annum from the date of delinquency will apply.

Hoping that the information herein given is clear and that all who owe delinquent taxes and who can possibly do so will avail themselves of the opportunity of paying prior to June 30, thereby saving the heavy penalty and all accrued interest, and at the same time help the state, county, road, and school funds; and not only that, but help to reduce the tax rate for the ensuing year, I am

Very respectfully,
N. D. READY,
Tax Collector.

M'KINNEY SCHOOL GRADUATE LANDS IN VENEZUELA

Dr. R. E. Morrow of Blythe's Chapel is in receipt of a cablegram from his son, Dallas C. Morrow, a petroleum geologist who landed in Venezuela, April 13, where he will be connected with the Caracas Oil company, probably for the next six months or longer. He embarked at New Orleans, April 1, and en route to Venezuela, he touched at Port Au Prince, Haiti; San Domingo, Dominican Republic, and passed along in sight of the Cuban coast. Dallas is a graduate of the McKinney High school, who received his higher training at the North Texas State Teachers college, Southern Methodist university, State university and Texas Technological college. He is the brother of Miss Venita Morrow, one of our McKinney Junior High school teachers.

Mrs. D. W. Hood, son Homer Hood and daughter, Miss Oka Hood, all of Westminster, visited in McKinney. While here Homer gave our office a most pleasant visit at which time he ordered the Weekly Democrat-Gazette sent to his grandmother, Mrs. W. T. Hood, who lives at Route 2, Mayesville, Okla. Mr. Hood's great-grandmother Mrs. Mary Cox, who is 86 years old, also lives at Mayesville, where she has resided for about seventeen years. She has been reading the Weekly Democrat-Gazette for more than thirty years. We appreciate the friendship and patronage of the Hood family.

Judge Ben L. Jones of Dallas was greeting friends here Saturday. Judge Jones formerly lived in Grayson county, being a native of that county. He was district judge at Sherman, after exchanging business with local lawyer.

ORCHESTRA GIVES CONCERT AT MELISSA SUNDAY

Prof. Ralph E. Frazier and his McKinney High School orchestra, accompanied by a number of McKinney citizens, journeyed to Melissa Sunday night where they gave a concert at the Baptist church, there. The Parris brothers quartet, composed of Elmer and Bob Parris both of Anna; E. L. Kissinger and Tom Mitchell, both of McKinney also sang several numbers which were greatly enjoyed.

Hamp S. Wysong, Melissa banker, presided over service which was entirely musical.

The McKinney High school orchestra, although it has been organized for only a short while, has become one of the finest amateur units ever assembled in the county, and its playing is greatly enjoyed at all times.

Addresses were made by Prof. Jack R. Ryan ,city superintendent of McKinney Public schools, who praised the relationship between Melissa and McKinney and especially in school matters. He commented on the fact that a Melissa boy, Edwin Dickenson, son of Erritt Dickenson, is president of the graduating class of McKinney High school this year and a member of the orchestra. He also expressed the appreciation of the McKinney school system for the splendid students which it has received from Melissa from year to vear and urged continued cooperation.

Jas. H. Merritt, a member of the school board of McKinney, also spoke briefly, in appreciation of Melissa as a community of highest type citienship and of the cordial relations existing between Melissa and McKinney in educational matters, particularly. Mr. Merritt is a native of Melissa, near which place he was born on the farm of his parents, the late Sheriff Bill Merritt, and wife, pioneer settlers.

Prof. Frazier is McKinney High School band instructor and had about twenty of his high school orchestra boys and girls with him on the very inspiring program of sacred and semi-clasical music. All four churches of Melissa gave way in their services for the McKinney High school orchestra program.

Another special feature of the program was the duet—violin by Hugh Kirkpatrick Jr., and piano by little Miss Ann Allbright.

CABELL'S, INC., OF DALLAS HOST TO LOCAL FRIENDS

Management of Cabell's Incorporated of Dallas where they own and operate a big central milk products ice cream factory and plant besides eight or ten retail stations over the city and also Cabell's Guernsey dairy farm of 200 acres on the Northwest Highway, out of the city a few miles, gave a barbecue 6:00 o'clock dinner at their modern dairy plant Friday evening to a party of about twenty-five or thirty Dallas and McKinney business men.

Those attending from McKinney were Tros. K. Craig, Alfred M. Scott, Secretary W. Hammond Moore of the Chamber of Commerce, President Howard S. Ware of the same organization; City Attorney John D. Reese, Walter B. Wilson, one of the editors of this paper, Henry W. Warden, A. H. Eubanks, Gibson Caldwell, Mayor Joe E. Largent, Tom H. Hughston, manager of the Collin County Cotton Oil Mill; and County Judge Frank Harrington.

The Cabell brothers are the grandsons of the late Gen. W. L. Cabell, noted Confederate general of the Civil war who lived and died in Dallas and are sons of former Sheriff and former Mayor Ben Cabell of Dallas, also deceased. These sons have made a success in the milk products business during the past few years. Their Guernsey dairy plant is ideally located for the purpose on one of the best concrete slab highways in the state. The firm markets the Guernsey whole milk to its retail milk using trade in the city of Dallas. The plant is modern in every respect. The concrete floor and steel stanchion milking barn is modern in construction, fly-proof and absolutely sanitery. The Guernsey herd is a creditable one and is headed by two splendidly bred big bulls. The visitors were very much interested in viewing the dairy herd and dairy equipment. The Cabell brothers proved to be ideal hosts and served delicious a barbecue meat and accessories as we have ever eaten.

Our readers will remember that the Cabell's Incorporated recently established a $10,000 fully paid-up milk products plant here at McKinney of which Alton (Buzz) Moseley is local manager. It buys whole milk at the plant and after separating the cream is conveyed to their big central Dallas plant where it is manufactured into ice cream and butter for the retail trade.

This firm had a big ad in this paper Friday, advertising Cabell's Dairy Colonial ice cream. We might add that the farmers around McKinney for several miles find this McKinney milk products plant a convenient market for disposing of their surplus milk. The plant is paying all the cash offered it locally and pleased with the steadily increasing quantities that are coming into it every week.

The treasurer gave a report after which Mrs. Smart made motion to adjourn.

Mrs. Wallace Hughston left Monday afternoon for Jackson, Mississippi, to spend a few days with her husband who is a delegate to the Quadrennial conference of the Southern Methodist church in session there for two or three weeks.

Charlie Ritch, an experienced dry goods salesman, announces to his friends that he is now connected with the McKinney Dry Goods company here in the capacity of salesman. He invites his friends to call on him at the new location.

NEVADA
Mrs. W. T. McCain

The members of the Nevada Methodist W. M. S. were given a St. Patrick party by Mrs. Will Boyd in her lovely home in Lavon, March 26. A color scheme of green and white was carried out. Several contests in keeping with the occasion proved real wit sharpeners and were much enjoyed. A business meeting was held prior to the social hour when several matters were discussed and passed upon. Reports for the past quarter were very gratifying, showing work done in each department and an increase in members and finances. Mrs. R. A. Maxey will represent the societ at the annual meeting which convenes in Wichita Falls April 3-5. A plate of dainty refreshments were served to eighteen members and two visitors.

A Missionary Journey.

Nineteen members of the Methodist Missionary society with one visitor, Davis Jones, as a driver, went on a missionary journey Thursday, March 22, visiting the mission projects of our church in Dallas.

First, we visited the Good Will Store, where our donations of clothing, books, etc., are stored and sold to the poor at a very low price.

From there, we went ot our Mexican Mission; there are 100 Mexican children enrolled in Kindergarten work, 59 were present Thursday. We enjoyed a program given by the children, given part in Spanish, part in English. From this program we gathered that they were being taugat to love Jesus. In this Mission is a free clinic where poor Mexican people are treated and nursed back to health. They treat on an average of 75 people per day.

Then, we went to the Virginia K. Johnson Home for unmate girls. In this lovely home the girls are taught the better and more abundant life. The home is equipped with the ideas and necessities of a well ordered private home.

We then drove to the zoo where a picnic lunch was served. Everyone had a lovely time, enjoying this social hour together.

Our next stop was at the Methodist hospital. After going through the building under a very efficient guide, we were all indeed proud of our hospital; glad too, that we have had a small part in erecting this beautiful hospital where so much suffering is relieved.

The last stop was at the Young Memorial Home for old ladies. It was a pleasure to see and talk to the women in the home. There are twenty of these women living on the ground floor and the nurses from the Methodist hospital live above in the other stories. These old ladies seem to be happy and contents some said the home was next to heaven to them. We saw some of the beautiful handiwork these ladies do and sell. The money is used to make the home more comfortable.

Everyone in the crowd enjoyed the trip and came home more enthusiastic and willing to do more to help carry on these wonderful projects. We want to thank those who made the trip possible for us. Especially do we wish to thank Mrs. Will Boyd, Mrs. Carl Reece, Mrs. Jim Davis and Mrs. John LaRue for using their cars, also Mrs. Mack Evans, president.

Editorial Expression

ROOSEVELT ANSWERS CRITICS.

President Roosevelt's new book, "On Our Ways" explains or answers critics of his Recovery Program in a very convincing way. Here are some of his unanswerable comments as given in the Pathfinder:

"Some people have called our new policy 'fascism.' It is not fascism because its inspiration springs from the mass of the people themselves rather than from a class or a group or a marching army. Moreover, it is being achieved without a change in fundamental republican method. We have kept faith with, and in, our traditional political institutions.

"Some people have called it 'communism'; it is not that either. It is not a driving regimentation founded upon the plans of a perpetuating directorate which subordinates the making of laws and the processes of the courts to the orders of the executive. Neither does it manifest itself in the total elimination of any class or in the abolition of private property.

"If it is a revolution, it is a peaceful one, achieved without violence, without the overthrow of the purposes of established law and without the denial of just treatment to any individual or class."

The President, in one of his earlier appeals, explained why it was necessary to get the prosperity machinery going again by starting with the farmers. Speaking of the higher prices of farm products and the government checks to the farmers, he said: "This money is paying bills; it is putting men back to work in the cities producing the things that farmers buy, and enabling those men in turn to buy the things that the farmers produce. But in all candor, I think a brief moment of gratification is enough; we seem to be on our way, but we are not yet out of the woods."

We still hear of good many big business leaders who refuse to recognize that special efforts have to be made to put the farmers back in the buying class. There is still a lingering idea in high industrial and financial quarters that prosperity can be enjoyed by the upper half of the nation, without the neccessity of letting the lower half share in it. But the farmers and those communities which depend largely on the agricultural industry have some very powerful and able friends at court, after all. A broadside just issued by the Committee of the Nation comes right out and says: "Farm products are still too low. They dropped one and one-half per cent in the Bureau of Labor Index of the week ending Feb. 24. In the same week the general index of commodity prices recorded the first decline of the present year. That means continued deflation."

In fact the Committee of the Nation is shouting for more inflation of the dollar. They point out that Congress authorized a cut of the dollar down to 50 cents—which would be equivalent to placing a value of $41.34 an ounce on gold, instead of the old-time $20.67 and the present $35. The devalued dollar now is worth 59.06 cents.

WHO PAYS COTTON PLOW-UP EXPENSE.

The total cost of the plow-up cotton campaign was paid by foreign nations, through the increased price of the cotton we will export to them. For each of the two preceding years we have exported more than eight million bales and it is safe to predict we will export eight million bales during the year 1933-34.

No one believes that if we had made 17,500,000 bales in 1933, as we would have, had not cotton been plowed up, cotton would have brought more than 5½ cents a pound. If the eight million bales exported sold for an average of 9.5 cents a pound, then the gain was 4 cents a pound, or $20 a bale making a gain on the exports alone of $160,000,000, which was the total cost of the plow-up campaign.

There is therefore a waste of time and sympathy to concern ourselves with the great costs to the government—or the nation as a whole. For this broader economic consideration the discussion as to who pays the processing tax or any other cost of reducing cotton production also becomes largely academic. The same principles will also apply to the cotton reduction campaign of 1934. The foreign nations who take eight million bales of our cotton because they must supply their needs, will pay the costs to this country.—Progressive Farmer.

AAA officials have recently announced, says the Memphis (Tenn.) Commercial Appeal, that crop reduction plans for corn, cotton, wheat and tobacco may eventually mean the retirement of 40,000,000 acres from commercial production. The life of the AAA is not absolutely assured, but it may be supposed that crop reduction, in one form or another, is destined to be a prominent feature of the farm trend in this country for three years or so, at least. That assumption, however, does not mean that all this land taust or should lie idle. In fact, the withdrawal in many sections of the country means an opportunity for rebuilding the soil, and that sort of work is badly needed.

The Chamber of Commerce works untiringly for you. Are you a member? If not, be for yourself and join.

County Farm Agent Jack McCullough of McKinney cautions all persons interested in buying or renting farms to first investigate to find out whether or not the government has a contract on the land to reduce certain crops. Cotton and wheat contracts will remain with the farm and not the man. A man moving from one farm to another will have to accept contracts covering that farm regardless of whether he has been growing more or less on the place that he has moved from. The government has a very efficient organization in carrying out its "New Deal" plans for increasing farm commodity markets and raising the buying power of farmers. It marvelously benefited the farmer during its first year of trial. The tiller of the soil, "the forgotten man," should wholeheartedly lend his cooperation to President Roosevelt's bold efforts to directly benefit the farming class of the United States as no other President has ever undertaken or accomplished.

"This Roosevelt Administration," says Senator Tom B. Love, "has done some enormously valuable things for the people, especially for the 'Forgotten Man.' In my opinion of all the big things it has done for the people, really the biggest has been to make the banks of the nation absolutely safe depositories for the people's money; and I want to say out of my own knowledge, which I think is as good as any one else on this particular subject, that this monumental result could not and certainly would not have been attained but for the prompt and unanimous action of the clearing house banks of the city of Dallas. If the ruinous losses inflicted upon communities and firms and individuals resulting from bank failures are things of the past, as they seem to be, the banker of Dallas are entitled to much of the credit for that consummation."

In a recent message in which he called out his national guardsmen to stop all forced sales of homes for taxes, Governor Bill Murray said: "The protection of the homes of the people in stressful times like these is a vital policy trascending any temporary loss of taxes. The governor is therefore constrained to exercise the supreme executive power to protect the public order and to serve the public weal." He instructed his Adjutant General to "use all force sufficient or necessary to execute this order." Gov. Murray always has been a fellow to look past the law, or accepted regulations, and see what his people want and need and then go ahead and do it if possible. Whether or not this tracking the letter if the law and right, we do not know. But, he carries it out and makes his opposition like it, which is one way of saying that he runs Oklahoma.

Finch Park is now coming into its most entrancing beauty. Its assortment of native Texas trees, with pecans predominating, are almost in full foliage. Flowers are blooming, hedges are neatly trimmed along winding drives and footpaths and the grassy lawns are freshly mowed and clipped, affording a verdant carpet to tread upon for those who repair to this favorite Collin county playground for rest and recreation. Almost every day it is a haven for picnickers and family reunions.

Young people need to be careful of their associates. If you run with the toughs and the lawless, genteel, well behaved people will list you also as a tough and politely avoid you. On the other hand if you run with the respectable and the upright and those who worship God in the Sunday School and church, your status in the community will be placed on a par with the latter class. Someone has said: "You are safe among the kind of people you like, for the other kind don't like you."

WHITE ROCK CLUB PURCHASES NEW PRESSURE COOKER

By purchasing a new pressure cooker this month, the White Rock 4-H club plans to be ready to start vegetable canning next month. Miss Dona Lee Carroll, club sponsor, told Miss Helen Dunlap, county home demonstration club agent, that the club girls have pieced a quilt and their mothers have quilted it in readiness for a pie supper to be given at the school house on Wednesday night, April 25. At that time the quilt will be given to the person holding the lucky number. The proceeds of the pie supper will be used in buying a new pressure cooker to be used in canning.

Miss Carrol was a member of the club last year, but this year has become the sponsor. She says that more girls need access to pressure cookers and she is trying to make it possible for each club girl to can more foods this year. The club expects to buy more canning equipment later and thus make it possible to do more extensive canning. Through the efforts of Miss Carroll, the White Rock club has the honor of being the first 4-H club in the county to undertake buying canning equipment.

"HOPE" SUBJECT OF ELD. R. C. HORN WHO OCCUPIED FIRST CHRISTIAN PULPIT AT SUNDAY MORNING HOUR

Still going strong, both mentally and physically, although in his ninety-first year, Eld. R. C. Horn, as has been his custom for several years, preached his ninetieth anniversary sermon at the First Christian church, this city, at 11:00 o'clock Sunday, April 29, from the pulpit of his pastor, Dr. Clifford S. Weaver, who introduced him.

The latter stated in his introduction that Eld. Horn's vigor, intellectually and physically, is nothing short of marvelous. The veteran minister of the Disciples of Christ Church was born, April 26, 1844, and has been preaching about sixty-six years. He is a college graduate, who has continued throughout his long life, to read, study and keep busy on the job. In the early part of his life, he taught school as well as preached and also worked his farm on which he lived until a few years ago.

Eld. Horn preached on "Hope," this year. One year ago, he preached on "Faith" and the previous year on "Love." He handled his subject ably and logically, preaching for about forty minutes. At the close of the sermon he opened the doors of the church and received a fine young couple into membership. Preceding the sermon, his son, Will Horn, and his son-in-law, Chas. W. Graves, were the officiating elders at the communion table. Eld. Horn's snow white hair, flowing white, silky beard and his white suit presented a striking personality, easily reminding his congregation of the patriarchial leaders of old told about in the scriptures.

Numerous friends from various local churches and the citizenship generally always attend this annual First Christian church service honoring this beloved old minister and listening to him preach every anniversary sermon.

The large choir was directed by Mrs. Joe E. Largent with Miss Tennie Strickland at the piano. Favorite old time church hymns were rendered.

Luncheon Enjoyed.

After the sermon a large part of the congregation repaired to the dining room of the Educational building of this modern big church plant where dinner was spread for those attending and the ministers of all the churches of the city, who could come for the occasion after closing services at their own churches. Eld. Horn is dearly beloved by the ministry of the city, regardless of faith or denomination.

Out-of-Town Guests.

Among the out-of-town guests coming to hear Eld. Horn preach his ninetieth anniversary service were: Mr. and Mrs. J. J. Rice, Ardmore, Oklahoma; R. H. Douglas, Van Alstyne; Miss Gertrude Arnold, Anna; Mrs. Ollie Hall, Route 6, Celina; Mr. and Mrs. Holder, Sulphur Springs, Texas; W. B. Stewart and wife, Brashear, Texas; Mrs. R. H. DECORATION DAY OBSERVED PECAN GROVE CEMETERY

Sunday was Decoration day at Pecan Grove cemetery when the gates of that beautiful hallowed spot were thrown open throughout the day as a steady stream of citizens who have loved ones and friends buried there came from all directions, bearing huge bouquets of flowers, to place on graves in McKinney's "Silent City."

Once each year the Pecan Grove cemetery association sets aside one Sunday to be observed as annual Decoration day, usually set at a time when most of the city's flowers are in full bloom. Such was the case this year, for McKinney's flower gardens were never more beautiful than they are at this time.

It was the consensus of opinion that perhaps more visitors were at the cemetery during the day and that more flowers were placed on the graves in that sacred spot than ever before on a similar occasion. In fact, when the day was over there were very few graves but what had at least one bouquet placed thereon. It was a beautiful and impressive sight and proved beyond a doubt that McKinney and surrounding communities care for their dead, taking advantage of the Decoration day to thus honor the memory of those loved ones and friends who have passed on.

Not only an abundance of flowers, but a wide variety of fragrant blossoms with a sprinkling of wild flowers, were placed on the graves. Some of the flowers decorating the graves were: Roses, verbenias, Bluebonnets, snapdragons, zinniss, Iris, larkspur, Sweet William, peonias and many other varieties.

Not only did local residents visit the scene, but out-of-town visitors from every direction, members of whose families are buried in Pecan Grove cemetery, came in large numbers, bringing flowers to place on the graves of some loved one who has preceded them to the great beyond.

The Pecan Grove cemetery association is gratified at the hearty response of our citizenship on the occasion of annual Decoration day.

REV. G. L. BUSH FAREWELL SERVICE AFTER 25 YEARS

Grover Moritz, wife and sons, have moved to a big 320 acre farm on Route 4, Carrollton, Missouri, where Mr. Moritz has more land to cultivate and more grass for his livestock. He and his five young sons are breeders of Poll Angus cattle. Mrs. Moritz was formerly Miss Grace Rice of McKinney, being a daughter of Mrs. John E. Wilson and a sister of Mrs. Rufus A. Furr and of Mrs. Otis Nelson, all of this city. They are regular readers of the Weekly Democrat-Gazette. We received the following interesting account, from Mrs. Moritz who is a former McKinney school teacher, telling about the great farewell service Sunday, April 15, given by the First Christian church of Carrollton to Rev. George L. Bush, formerly pastor for several years of the First Christian church at McKinney. This editor attended the McKinney farewell service to Rev. Bush when he was leaving a number of years ago. He concluded the twenty-fifth year as pastor at Carrollton. Mrs. Moritz says:

"It has been our privilege to attend services at the Christian church several times and hear Rev. George L. Bush preach. This past Sunday marked the close of his twenty-fifth year as pastor in Carrollton. They had special services with a homecoming and basket dinner to commemorate the services he and Mrs. Bush had rendered their church during the past quarter of a century.

"No one, who had ever heard Rev. Mr. Bush speak, could forget his voice. It is still that kind, sympathetic and appealing, persuasive tone.

"He chose his text from Isaiah 61st chapter. The same text he used twenty-five years ago when he first preached to this Missouri church and he said he was more nervous than that morning. He told of Christ's good ministries as he went about preaching and healing. He told of his own call to the ministry and how that his mother dedicated him to Christ's services before he was born.

"All songs used were his selections. Two favorites: "Don't Forget to Pray" and "I Need Thee" were used as solos.

"In closing he spoke kindly to his members, reading from Thessalonians, "We give thanks to God, mentioning you in our prayers."

"The services were then turned over to the church clerk. He had in his hand messages and telegrams of congratulations and good wishes both to the church and to Rev. Mr. Bush. One from J. F. Donalson, Kansas City, former secretary of the state missions; one from Winsdor, Missouri, where he entered the pastorate about the year 1900, near the time of his marriage. He left there going to Texas to be near his parents, and I presume it was to McKinney.

"There are many in McKinney who still remember and love Rev. Mr. Bush so thought you might be glad to have this story of his farewell services Sunday."

G. B. Foster of Dallas came up to McKinney Saturday afternoon with the delegation to hear Hon. Maury Hughes make his opening speech as candidate for governor. Mr. Foster was delighted with the spendid reception given Mr. Hughes and his friends from Dallas. While in the city he briefly visited his brother, Jesse M. Foster and family.

McKinney was the mecca Saturday of hundreds of iends and admirers of Hon. F. D. (Dudley) Perkins pre-ded and called on Mayor Joe Largent to extend the wel-me address to McKinney's visi-rs. Mayor Largent recalled the ening address in his campaign r governor of O. B. Colquitt, 1910, who, he suggested, was successful candidate. It is an nor to our city and communi-, he pointed out, for a candi-te for the governor's office to ense our city in which to make opening address.

Telegrams were read by Chair-n Perkins from friends and sirers from Austin, Travis, ris, Bexar, Stephens and Dallas unties. Delegations from several ny cities and counties also ssed up to McKinney to hear Hughes.

In the absence of Hon. Jewell Abernathy, scheduled to in-duce the speaker, who was ill, e speaker was introduced by r. Perkins, whom he described a World war veteran, who s decorated for bravery in ac-n, and who enlisted as a pri-te and advanced to a captain-. Mr. Hughes, he declared, is Legionnaire and is president the Thirty-Sixth Division As-ciation. He is a Mason and a ciate, is civic-minded and is educated, cultured, Christian ntleman. He attended A. & M. llege and the University of xas, is a member of the piscopal church and has been active member of the Demo-atic party for many years. He s twice a member of the State ecutive committee and was a legate to the National Demo-atic convention in Chicago in 32. Mr. Perkins also declared at President Roosevelt appoint-Mr. Hughes a member of the te Recovery Board and as airman of same he has largely rated the set-up of the NRA d "New Deal" machinery in xas. "He has seen fit to fire e opening gun of his campaign r governor in our fair little y and he is deserving of the ost consideration of all our ens," Mr. Perkins said.

Among other things, Mr. ghes advocated apportionment additional one-eighth of the soline tax to the schools so t the doors can be kept open for full term and the teachers ore fully paid.

He declared himself heartily in or of the repeal of the state ohibition amendment and of Texas law.

He called attention to the t anti-lobbyist law now on statute books of Texas, as-ting that Texas has one of the rictest laws along this line of state.

He appealed for an end to the ter political strife that has sulted in Texas for years.

Two bands, one from Dallas d the McKinney Junior Cham-r of Commerce band, directed Prof. Ralph E. Frazier, pro-ed music for the occasion.

ks on "The New Deal."

On Mr. Hughes took for his bject, "The New Deal." His ad-ess was eloquent and clear-cut. e address here this afternoon s in detail:

* * *

e New Deal.

"The bitter political strife that s existed between those who ve recently served as Gover-r of Texas has seriously affect-the welfare of our people. This ntinued bitterness has found its ression in the legislative halls, d as a result there has been t cooperation between the ecutive and the Governor. It s brought to a standstill much e needed legislation. Many im-rtant measures have failed of ssage, and the session has been ded without the passage of a ngle appropriation bill. Many ntangible assets are now escaping the payment of all taxes. I favor a registration tax on notes, bonds and certificates of indebtedness, making it a defense against collection of same if they have not been rendered for taxation. If this policy is adopted, millions of dollars worth of property will be added to our tax rolls.

With the gradual return of prosperity, and the increase of property values, together with the increase of tax collections, it should not be necessary to levy any more general taxes. As I have stated before, I am against the proposed State sales tax. On account of the increased income tax levied by the Federal government, I am against a State income tax. I am against the issuance of any more State bonds for a period of at least four years.

* * *

Automobile Registration Fees.

I am for reducing automobile registration fees. The maximum registration fee for a pleasure car should not exceed Five Dollars. The present tax on a cheap automobile, added to the ad valorem tax and the gasoline tax, amounts practically to confiscation.

Schools.

I am intensely interested in the public school system of Texas. In the 6000 common school districts and the 1100 independent school districts in the State, we have 1,600,000 school children. Many of these children only receive schooling five months in the year, and are taught by teachers who receive less than Five Hundred Dollars per annum. There is now a deficit in the available school fund of approximately Five Million Dollars. There are over one thousand school teachers in Texas on the relief rolls. As Governor of Texas, I propose to come to the relief of the school children and school teachers. While Chairman of the State Recovery Board of Texas, I went to Washington to seek Federal aid for rural schools, and relief for unemployed school teachers. In a small measure I was responsible for the establishment of adult schools throughout the State, and I believe I was instrumental in some degree in securing Federal aid for rural schools. Every child is entitled to at least seven months schooling in a year, and the full nine-month term, if possible. Our school teachers should receive a decent and livable wage. Many now receive less than thirty cents an hour. I am against any interference on the part of the State or Federal government in the operation of private schools. If it is necessary to accomplish the proposed benefits I have outlined, I am in favor of appropriating another one-eighth of the gasoline tax to the school fund; that is, taking approximately Four Million Dollars out of the highway fund for this purpose. If there must be a choice between the highway department and the school children, I will stand by the children. The building of highways and buildings can wait, if necessary; the education of our children can not. I am determined that the school children and school teachers of Texas shall not pay for this depression.

I am opposed to abolishing any of our present schools, reducing their rank, or merging them with any other institutions of a similar nature. As soon as possible, I am in favor of restoring the scholastic apportionment to the 1930-32 level, which was $17.50 per capita.

Old Age Pensions.

The time has arrived when the American people must assume a different attitude toward the aged, infirm and unfortunate, and toward those who have grown old in public or private service. The poor house and county farm should no longer claim as its inmates honorable men and women who are unfortunate victims of poverty. The Democratic party, at its National convention in 1932, declared in favor of old age pensions through the states. As one of the authors of the National platform, I supported and voted for this measure. The huge sums that are being spent by the State directly, and through our county governments, should go into an old age pension fund. This fund will be augmented by employers and employes. Under this plan, aged and dependent men and women will receive from $15.00 to $30.00 per month pension.

I am for the proposed firemen's pension and relief fund, and for a retirement fund for school teachers. I am also for the establishment of a retirement fund for those connected with the public service, a plan similar to that now employed by the Federal government.

* * *

Eleemosynary Institutions.

I am for liberal appropriations for our State eleemosynary institutions that care for our blind, insane and afflicted. Today the records of the Comptroller's office reflect that there are more than 500 insane people languishing in our county jails, because there are not available facilities to care for them in our State institutions. While I am for rigid economy in the administration of the State's affairs, I am against economy at the expense of human misery. The day has arrived in Texas when the fortunate must take care of his unfortunate neighbor.

* * *

Labor.

My sympathies have always been with the toiling masses and the plain people, with the laborers, who are the real builders of our civilization. Of course, I believe in the right of collective bargaining and the right to organize under the terms and conditions prescribed by the President in his blanket agreement. It has been clearly demonstrated, even to the skeptical, that the only solution to the unemployment problem is a short day, a short week, with a living wage. I congratulate the President on abolishing child labor, and I am for every protection being thrown around the women who toil.

* * *

Liquor.

Practically every Democrat, whether wet or dry, is for submitting to the people the question of whether Texas shall be wet or dry. As soon as the question is submitted, the people will be divided into two factions: those liberal Democrats who favor repeal, and those who are against repeal. The next Governor will be the leader of one of these forces. The question now is whether Texas should elect a wet or dry Governor. If Texas elects a wet Governor, and repeal is accomplished, the State will have a new income from between five and six millions dollars per annum, which will partially solve our tax problems. I am for immediate repeal, and not only will I vote for repeal, but I will fight for its accomplishment. I am convinced that the doctrine of local option and local self-government should be submitted for our present law. Then every dry county will have the right to remain dry and be entitled to full protection of the State and National laws; and in those counties where the sentiment is wet, intoxicating liquor may be sold.

I am against the open saloon, and for strict regulartory legislation under a bond and license system. Today in many cities in South Texas saloons are wide open, with no pretense made to obey the State dry law. Whisky is sold openly and publicly. I charge that Mr. Allred, our Attorney General and dry candidate for Governor, has knowledge of these facts; and, if he is sincere in his views on repeal, I challenge him to answer why he does not bring injunctions or padlock proceedings against these liquor dealers. Of course, nothing will be done. I charge that Mr. Allred is running on a dry ticket in North Texas, and on a wet ticket in South Texas; and that he is endeavoring to pacify the wets in South Texas by appointing dripping wet campaign managers in the wet communities. While this prohibition farce is continuing in Texas, the State is losing millions of dollars in revenue, and the liquor traffic is continuing untaxed, unlicensed and uncontrolled. As soon as repeal is accomplished, I will advocate that one-half of the liquor tax go to the available school fund for the payment of adequate salaries to our school teachers, and the remainder of the general fund.

* * *

Highway Commission.

I am for an elective Highway Commission in Texas. I am for dividing the State into four highway districts: One for North, South, East and West Texas respectively, giving the people in each district the right to elect one Commissioner. When this is done, each district will have direct representation on the Highway Commission. I am for giving the Governor the right to appoint the Chairman of the Commission. As constituted at the present time, the Governor has no control over the Commission, and the Commissioners, being appointed for six years, are not responsible to the people. As a result, the Highway Commission often ignores the wishes of the people.

* * *

Political Bunk.

During the coming campaign, I will endeavor to make no promises that I do not believe can be fulfilled to the letter, and I warn the Democracy of Texas against the "political bunk" that has already made its appearance in this campaign. There has been much talk by several candidates about "busting" trusts and abolishing lobbying. They promise to drive the lobbyists from the State Capitol. Unknown to some of these gentlemen, Texas now has the strictest lobby law of any state in the Union. Article 316 of our penal code reads as follows:

"If any agent, representative or attorney of any person, association or corporation, shall at any place in this State, privately solicit the vote, or privately endeavor to exercise any influence, or offer anything of value or any inducement whatever to any member of the Legislature, to influence his action, concerning any measure then pending, or thereafter to be introduced in any Legislature of this State, he will be deemed guilty of lobbying."

The punishment for lobbying shall be by fine of not less than two hundred and not more than two thousand dollars; and in addition, any person convicted of lobbying may, at the discretion of the jury, be imprisoned in the penitentiary for not less than six months, nor more than two years. Any violation of this law shall be prosecuted in the county where the offense is committed, or in Travis County. The statute allows any person to collect facts, or prepare petitions and present than to members of the Legislature: But in each case, the person presenting them must now, under the law, fully disclose his interest in the matter, and by whom he is employed. What stronger lobby laws could be enacted?

If this law has been violated, it is the duty of the Attorney General of Texas—Mr. Allred, the dry candidate for Governor—to prosecute. There have been no prosecutions, nor even an investigation by our Attorney General. The Grand Jury has never been called on to inquire into lobbying conditions. Last year Mr. Allred declared war on the big oil companies. The oil companies, of course, are still doing business at the same old stand in the same old way, and Jimmie isn't mad at them any more.

* * *

Co-Operation With The Federal Government.

The government in Texas is more closely allied with the Federal Government than at any time during the history of this State, and the Governor of Texas must work harmoniously with the President and Vice President of the United States, if Texas is to share equally with other states in the New Deal. I deemed it a great honor when the President appointed me a member of the State Recovery Board, in 1933, and as Chairman I did everything in my power to justify the confidence the President placed in me. As Chairman of the Board, I helped direct the set-up of the NRA and New Deal machinery in Texas; and as Chairman of the State Democratic Executive Committee, I have cooperated fully with the President of the United States. As Governor of Texas, I will continue to cooperate with him in his efforts to redistribute the wealth of the Nation; to equalize the burdens of taxation; to destroy the forces of corruption and favoritism, and restore prosperity to the masses of the people.

The terracing demonstration on March 19 held on the Sam Montgomery farm went over in a big way. Over 200 farmers, future farmers and others interested in agriculture and soil preservation witnessed the demonstration work. Besides seeing the real work of terrace building, the visitors inspected terraces already built on the farms of Sam Dewey, Lewis and Maurice Montgomery. Pictures of terraces and the operation of terracing were made by a Farm & Ranch representative. Editor Smith of the Farmersville Times made a brief talk after which he introduced Ellison; D. L. Miller, overseer of field work; county agent Jack McCullough, Commissioner Wilson Spain and T. C. Richardson, field editor for Farm & Ranch, each of whom made splendid talks on terracing as a means of preventing soil erosion. One speaker brought out the fact that by terracing the land will be in a much better condition for cultivating for future generations than past agricultural means have left it for the present farmers. Coach Sandles and his vocational agriculture class of the Farmersville high school served a good dinner consisting of barbecued beef, pork and chicken with fresh green onions, pickles and the necessity of life, bread. Dinner was served in the Sam Montgomery pasture where the speakers stand was located. The Farmersville band furnished music for the occasion. Esch musical number was thoroughly enjoyed by those present.

Besides the Montgomerys, Sam Gambrell, George Hornbuckle, George Johnson and Rev. R. T. Sisco of this community have their farms terraced.

Terraces are laid off by the vocational agricultural teacher, Mr. Sandles of Farmersville. A grader or terracer is furnished by the county commissioner, Mr. Spain, and the CCC boys who are camped at Farmersville do the concrete work. Thus the farmer has his soil well preserved at a minimum cost. The CCC boys are working over a territory extending from McKinney to Greenville and fifteen miles north and fifteen miles south of Farmersville.
